Rinstrum LUA Cattle Weigher Software

Weighing & Ticket Printing - Quick Guide

Before You Start

- Bottom display must say: **READY**

If **READY** is not showing:

1. Restart the indicator
2. If still no READY, call **06 347 2253**

Weighing & Printing a Ticket

1 Wait for Stable Weight

- Ensure the motion indicator is **OFF** (scale stable)

2 Start

- Press **F1**

3 Enter Details (follow prompts on screen)

- **LOT?**
  Enter lot number → press **OK / Enter**
- **TYPE?**
  Enter cattle type (e.g. STR, HFR, BULL) → press **OK / Enter**
- **TALLY?**
  Enter number of animals → press **OK / Enter**

4 Add More Weights?

After the tally, the screen will show **ADD?**
Proceed to table below

Notes

- All weights are combined into one ticket
- Average weight is calculated automatically
- If you make a mistake, press **CANCEL / Backspace** and re-enter

Option	Action	Details
F2 = YES	Add more animals	Load next group; Wait for stable weight; Enter a new TALLY. Weights and tallies are automatically combined.
F3 = NO	Finish & Print	Ticket prints; System returns to READY.
